

In response to proceeding 02-278; We are so grateful for the reprieve we have been given after putting our name on the list in the state of Indiana so as not to receive phone solicitation. Please do not take this away from us!!! Before signing up, our evenings were filled with unwanted solicitors. We work long days because we own our own business. Our evenings are busy as well so when we have the luxury of a free evening at home, the last thing we want is to be constantly answering the phone again. Thank you for allowing us to give you our opinion.
